### Introduction-project

The **17th** edition of the **Mediterranean Microwave Symposium (MMS-2017)** is the best conference to discover the newest developments in RF/microwave and antenna technologies. The principal topics of interest MMS 2017 include:

- Microwave-Media interactions
- Microwave Metrology, Measurement Techniques
- Microwave and Millimeter-wave Components, Circuits and Devices
- Energy Harvesting
- Antennas and Telecommunication Systems
- Propagation, Scattering and Diffraction
- 3D printing for microwave applications
- Classical and organic microelectronic for microwave applications
- Sustainable development in RF and microwave domains
- Spatial communications
- Internet IoT
- ...

### Keynote Speakers :

**Essam HEGGY**, NASA's Jet Propulsion Laboratory (USA)

**Samir EL-GHAZALY**, University of Arkansas (USA)

**Cyril POUPON**, CEA NeuroSpin (France)

**Nuno CARVALHO**, Universidade de Aveiro, (Portugal)

**Julien HILLAIRET**, CEA Cadarache (France)

**Redha ABDEDDAIM**, Institut Fresnel (France)

**Workshop:** on Monday, 27th November: *New solutions for Innovating learning for electromagnetism teaching.*

**Awards:** Two students Awards and one general Award:  
**young scientist competitions and Best paper.**

**Major dates and organization :** Two ways of presentations: Plenary sessions and Poster sessions
