

# Marseille ElectroMagnetism and Optics student chapter

## Who we are...

We are group of students which aim to:

- Organizing events related to electromagnetic and optical science.
- Create and strengthen the links between young scientists and researchers both in academia and industry.
- Engage in outreach activities targeted towards the general public.

## Student Chapter

To support these activities, we are affiliated as a student chapter with the OSA, one of the main international professional societies in the field.

## Joins us!

We are mainly a group of PhD students based at the Institute Fresnel.

However, our aim is to become an association grouping students of **many levels** from **many institutes, schools and universities in Marseille.**
